Trimble Forensics Pre-course Checklist

Before attending our Trimble Forensics Training Course, please go through the checklist below to be ready for the first day of class to ensure no time is wasted during the course.

Trimble Forensics Training Course requirements:

☐ All course attendees must bring their own computer and external mouse. Please ensure PC is wireless capable.

☐ Confirm and install the most recent version of software on training computer. Please contact the training coordinator if download links and temporary keys are needed.

ONLINE Course Requirements:

☐ Ensure your computer used for online training has a microphone for communications with the instructor.

☐ Highly Recommended if possible - use two monitors for easy access to follow along.

Courses Involving Hardware:

☐ Ensure the most recent version of software installed onto your data collector.

☐ Active sync and .NET framework software MUST be installed on computers with Windows XP or earlier Windows OS.

☐ Make sure all batteries for your total station and data collector are charged and ready to use for the first day of class.

☐ Bring a 25 - 50 ft. measuring tap for Reference Measuring Protocol.

☐ Bring associated hardware accessories (i.e. tripod, tripod adaptor, prism, prism pole etc.)

☐ Bring all necessary cords for your computer and hardware.

*Please keep in mind that "real world" forensic mapping situations normally require two (2) people to document a scene. We strongly recommend that agencies purchase a minimum of two seats if at all possible.

If you have questions on any of the items listed above, please email forensic_support@trimble.com or phone: 1-888-828-0383 ext 503
