NEWS – LEGACY VS VISUAL STATEMENT PREPAID TRAINING PRODUCTS TO EXPIRE

Visual Statement is Now Trimble Forensics

Re: Unused Legacy Visual Statement Training Products purchased between 2007 and 2016 **WILL EXPIRE 12/29/17**

You may have purchased a training product from VS Visual Statement Inc. between 2007 and 2016 but have not scheduled a course for your prepaid training to date. This serves as notice that our legacy online or onsite training products will be discontinued and will expire as of December 29, 2017 if a training date is not scheduled before the expiration date. Please note that these prepaid training products are non-transferable and non-refundable.

In August, 2017 Trimble Forensics issued a Product Bulletin to all existing customers recommending an upgrade of the Visual Statement legacy software to our new software, Trimble Forensics Reveal, before December 29, 2017 as the legacy software will no longer be supported.

Please visit our website at <http://www.forensics.trimble.com> for more product information. Trimble Forensics Reveal online training courses and dates can be found on our Training Calendar under Support on our website. Additionally, please email forensics_sales@trimble.com for questions regarding your software upgrade eligibility.

Thank you in advance for your continued business.

Trimble Forensics Team
